

Thevindu Kevin

Software Engineer UG -
University of Kelaniya

I am an effective communicator, both internally and externally, and I am able to clearly articulate my ideas and concepts to stakeholders. As a Software Engineer UG, I have a strong background in C, java development. I have a solid understanding of SDLC practices and can play an acting scrum-master role if required. With a passion of delivering successful software projects and for continuous learning, I am excited to bring my expertise and knowledge to your organization as a Software Engineer Intern.
